### MetecnoTherm<sup>®</sup>

**Description of product:** 

THIS IS TO CERTIFY THAT

**MetecnoTherm®** is a rigid thermal insulation board made from polyisocyanurate (PIR) core thermoset between two layers of flexible facings.

**MetecnoThermPB®** – comprises of MetecnoTherm® with an additional finished surface of Plasterboard sheeting.

**MetecnoThermFC®** – comprises of MetecnoTherm® with an additional finished surface of Fibre Cement sheeting.

**MetecnoTherm® UnderSlab** – comprises of MetecnoTherm® sandwiched between the subsoil and concrete slab.

**MetecnoCast®** – comprises of MetecnoTherm® sandwiched between two wythes of concrete with HK Standard non-conductive wall ties.

SUBJECT TO THE FOLLOWING LIMITATIONS AND CONDITIONS AND THE PRODUCT TECHNICAL DATA IN APPENDIX A AND EVALUATION STATEMENTS IN APPENDIX B

Limitations and conditions: Building classification/s:

1. This product has not been tested to AS 1530.1-1994 (R2016) and cannot be considered a non-combustible product.

2. The structural support members are designed and engineered separately as per project requirements by building designers and engineers

Class 1,2,3,4,5,6,7,8,9 & 10

### **Certificate of Conformity**

- 3. Group numbers has been determined in accordance with testing conducted to AS ISO 9705 and assessment against AS5637.1: 2015 and excludes MetecnoTherm® UnderSlab and MetecnoCast®.
- 4. The use of MetecnoTherm® as internal wall and ceiling linings must comply with the group number specified in Table S7C4 of Specification 7 of the BCA Volume 1, 2022. Refer A3 for the determined Group Number for MetecnoTherm®, MetecnoTherm FC® and MetecnoTherm PB®.
- 5. Installation MetecnoTherm®, MetecnoThermPB®, MetecnoThermFC®, MetecnoTherm® UnderSlab & MetecnoCast® of must be in accordance with the MetecnoTherm® Design & Install Guide v5.
- 6. The use of the certified product/system is subject to these Limitations and Conditions and must be read in conjunction with the Scope of Certification below.

Scope of certification: The CodeMark Scheme is a building product certification scheme. The rules of the Scheme are available at the ABCB website www.abcb.gov.au. This Certificate of Conformity is to confirm that the relevant requirements of the Building Code of Australia (BCA) as claimed against have been met. The responsibility for the product performance and its fitness for the intended use remain with the Certificate Holder. The certification is not transferrable to a manufacturer not listed on Appendix A of this certificate.

Only criteria as identified within this Certificate of Conformity can be used for CodeMark certification claims. Where other claims are made in a client's Installation Manual, Website or other documents that are outside the criteria on this Certificate of Conformity, such criteria cannot be used or claimed to meet the requirements of this CodeMark certification.

The NCC defines a Performance Solution as one that complies with the Performance Requirements by means other than a Deemed-to-Satisfy Solution. A Building Solution that relies on a CodeMark Certificate of Conformity that certifies a product against the Performance Requirements cannot be considered as Deemed-to-Satisfy Solution.

This Certificate of Conformity may only relate to a part of a Performance Solution. In these circumstances other evidence of suitability is needed to demonstrate that the relevant Performance Requirements have been met. The relevant provisions of the Governing Requirements in Part A of the NCC will also need to be satisfied.

This Certificate of Conformity is issued based on the evidence of compliance as detailed herein. Any deviation from the specifications contained in this Certificate of Conformity is outside of this document's scope and the installation of the certified product will not be covered by this Certificate of Conformity.

**Disclaimer:** The Scheme Owner, Scheme Administrator and Scheme Accreditation Body do not make any representations, warranties or guarantees, and accept no legal liability whatsoever arising from or connected to, the accuracy, reliability, currency or completeness of any material contained within this certificate; and the Scheme Owner, Scheme Administrator and Scheme Accreditation Body disclaim to the extent permitted by law, all liability (including negligence) for claims of losses, expenses, damages and costs arising as a result of the use of the product(s) referred to in this certificate.

When using the CodeMark logo in relation to or on the product/system, the Certificate Holder makes a declaration of compliance with the Scope of Certification and confirms that the product is identical to the product certified herein. In issuing this Certificate of Conformity, CMI Certification Pty Ltd (CMI) has relied on the experience and expertise of external bodies (laboratories and technical experts).

Nothing in this document should be construed as a warranty or guarantee by CMI, and the only applicable warranties will be those provided by the Certificate Holder.

### APPENDIX A – PRODUCT TECHNICAL DATA

### A1 Type and intended use of product

As per page 1.

### A2 Description of product

Core	PIR (Polyisocyanurate)
Width (cover mm)	1200
Thickness (mm)	MetecnoTherm® & MetecnoCast® - 25 to 100 in 5mm increments MetecnoThermFC® - 29.5 to 104.5 in 5mm increments (with 4.5mm FC) MetecnoThermFC® - 31 to 106 in 5mm increments (with 6.0mm FC) MetecnoThermPB® - 35 to 110 in 5mm increments (with 10mm PB) MetecnoThermPB® - 38 to 113 in 5mm increments (with 13mm PB) MetecnoTherm® UnderSlab - 30 to 50mm
Length	2.4m
Inner Face	Embossed Foil, Paper, Coated Glass Fibre
Outer Face	MetecnoTherm®, MetecnoTherm® UnderSlab & MetecnoCast® - Embossed Foil, Paper, Coated Glass Fibre MetecnoThermFC® - 4.5mm, 6.0mm Fibre Cement MetecnoThermPB® - 10mm, 13mm Plasterboard

### A3 Product specification

### **Material Group Numbers**

Group Number have been determined in accordance with testing conducted to ISO 9705 and assessment against AS 5637.1:2015.

MetecnoTherm®		MetecnoTherm FC®		MetecnoTherm PB®

#### Notes:

- Declared R-values are Product R-values and exclude air film resistances.
- Total R-values include default air film resistances for the applications.
- The results are compliant with AS/NZS 4859 Parts 1&2:2018, Thermal insulation materials for buildings.

### A4 Manufacturer and manufacturing plant(s)

This field is optional. Contact the Certificate Holder for details.

### **A5 Installation requirements**

Installation MetecnoTherm®, MetecnoThermB®, MetecnoThermB®, MetecnoTherm® UnderSlab & MetecnoCast® of must be in accordance with the MetecnoTherm® Design & Install Guide - v5.

Certificate number: CM40415-I01-R00 This certificate is only valid when reproduced in its entirety.

#### A6 Other relevant technical data
